

FSB41600Z Dishwasher

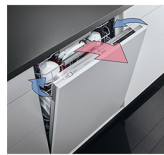

Customised Cycles, Complete Cleaning

Advanced sensors in AEG dishwashers automatically adjust the time, temperature and water usage according to the soil level of each load. So you can have customised cycles for each clean with the very best results every time.

Ready when you are

Make the most of the time you have available with the delay start function in our dishwashers. Preset a programme time that suits and enjoy the convenience of having clean dishes when you want them.

Drying naturally

The new Airdry technology lets you maximise your drying performance with natural airflow. The door automatically opens up 10 cm when the cycle is in the last stage and the dishes are done. It dries your dishes naturally while also reducing your energy.
